Barry-Wehmiller

Pneumatic Scale Corporation

Pneumatic Scale, a Barry-Wehmler company, is a world-wide provider of packaging automation equipment and services for the pharmaceutical, chemical, household, cosmetic, food, beverage, pet food, and automotive industries. With over 100 years of service, Pneumatic Scale has led the industry in the design, manufacture, and integration of fillers, cappers, can seamers, and bottle cleaners.

Headquartered in Akron, the Pneumatic Scale facility houses 130,000 square feet of manufacturing and office space. The site also features an environmental laboratory capable of testing an extensive array of liquid and dry products under a variety of temperature and humidity gradients.

Pneumatic Scale's renowned capping capability, rooted in the Consolidated® capper and Pneumacapper® technologies, fulfills virtually any capping requirement – retorquing, pump caps, over capping, plugging, snap, and threaded caps.

The durable Closetech® can seamer product line boasts the fastest speeds in the industry utilizing the fewest spindles and can be integrated with the Burt Roll-Through Labeler, the canning industry's labeling standard.

Pneumatic Scale also offers a broad range of filling technologies including flow meter, level-sensing, volumetric, volumetric auger, and net weigh, to satisfy a wide range of filling requirements for liquid and dry products.

Carr Viafuge Pilot

Pneumatic Scale Closetech High Speed Closing Machine

In addition to providing quality equipment, Pneumatic Scale offers outstanding customer service and support for more than 45,000 installed machines. From 1920's vintage Double Package Makers to state-of-the-art Flow Meter fillers, Pneumatic Scale provides on-time parts deliveries, equipment upgrades, training, and technical assistance. For customers' convenience, parts ordering, Technical Instruction Program registration, Field Service requests, and quote requests are available on-line.

Through its Pre-Owned Equipment Center, Pneumatic Scale offers certified pre-owned factory rebuilt equipment, upgrades, and refurbishing services for OEM equipment. A valuable resource, the Pre-Owned Equipment Center provides quick turnaround, competitive pricing, and new machine warranties for factory-overhauled machinery. An on-site inventory, market intelligence of available equipment, and technical expertise facilitate the fulfillment of the most demanding packaging requirements.

Each Pneumatic Scale machine is custom designed for each application, taking unique product and plant requirements into consideration to ensure efficiency and operational excellence. From planning to production, Pneumatic Scale delivers single source benefits, integration, and the most advanced technology available.
